

Aqua Mist Misters

Plastic Misting Nozzles

**Standard Plastic
Misting Nozzles**

**Plastic Misting Nozzles
w/ Internal Cup Strainers**

- Manufactured from chemical and corrosion resistant plastic, will actually outlast brass misting nozzles
- Ideal for low pressure misting where the water pressure is less than 100psi, but will also work for medium and high pressure applications
- Each misting nozzle has its own built-in mesh screen filter to prevent nozzle clogging
- Plastic misting nozzles with internal cup style strainers available for “Push to Connect” style fittings and installing directly into small diameter piping
- Outlasts cheaper, inferior plastic misting nozzles that clog quickly due to no built-in filter
- 1/8” Male NPT Pipe Thread
- Stock nozzle size is 0.63gph@40psi, 1.00gph@100psi. This size is best suited for mist cooling and dust control applications
- 2gph@100psi and 3gph@100psi plastic misting nozzles are available by special order. Please inquire for pricing on these nozzles. Lead time is usually only 3 days on special order plastic misting nozzles
